

# Calgary Food Committee Presents: An Eating & Learning Event!

## CALGARY EATS!

January 28<sup>th</sup> 2012

### **VISION:**

*To create a sustainable and resilient food system for the Calgary region.*

The **Calgary Food Committee** is developing a **Food System Assessment for Calgary** that will examine the range of food issues and assets and identify actions to help move us forward to a more sustainable food system....and we want you to be involved.

We are holding a public event on Saturday January 28<sup>th</sup> at the Ant Hill Building in Kensington. This event will showcase the many businesses, organizations and individuals who are working in, or connected to, the food system in the Calgary region. This will provide an incredible opportunity to connect with one another and share in the opportunities and actions that people are taking to build a more resilient and sustainable food system for our city. Oh, and we all get to eat some great food!
